#### 100 Million Books For Chrome Free License Key X64

100 Million Books is a little Chrome extension that helps you discover more books to read. This extension is inspired by Eric Schmidt's book "The New Digital Age", where he talks about how reading has completely changed throughout the centuries and how our digital world is changing it once again. In the past, the idea of reading a book was almost a luxury, now, the digital age is rapidly coming back. With such an alarming rate, there is more and more digital content than ever. So we decided that if we get to read all this content, we should do it in a new way. Rather than just clicking through every one of these links, we decided to try to find the best content for you. Once you open a new tab, the extension will automatically load the title of your last opened tab, and from there, it will try to find the best book to read. The concept is quite simple, each new tab will have a new book on it, and the extension will tell you if the book you're about to read is worth your time or not. The extension is based on the number of ratings each book has. So, the more reviews a book has, the more likely it is that you'll like it. After you finished reading, you will get an email notification with a link to the Bookshelf - an online reader, that you can use to read the book offline. Features: ✓ Start reading an inspiring book without opening a new tab, just by clicking on a link in the email. ✓ Automatically shows you links to all relevant books that can be read without opening a new tab. ✓ Diggity diggity. No opening a new tab to read your email or your favorite social feed. ✓ Easy to install and use. ✓ Fast and beautiful and much more. ✓ Search and browse hand-picked books curated by our editorial team. ✓ Beautiful visual and educational book descriptions. ✓ Instantly download a free Kindle app to read all books on the go. ✓ Right book right now, in any location. ✓ No time like the present. ✓ We're always watching. Want to get on the list for our next update? Please join the mailing list.
